CAMERON, MILAM COUNTY, TEXAS, THURSDAY February 23, 1956

NUMBER 47

The proposed Cameron Community Center provides for a wide variety of community activities, as shown by the floor-plan (above). Permanent quarters are planned for the Boy Scouts, Cameron Library, and Chamber of Commerce. The large activity room is so arranged that the total area may be used to accommodate large crowds for almost any type of community function, or may be divided into small areas to care for smaller groups, such as civic clubs. Rest rooms, storage space for banquet tables, chairs, recreational and other equipment, and a large well equipped kitchen are also provided for.

## Salk Polio Vaccine Shots On Increase In Milam County

Polio vaccinations are increasing in the Health Unit Clinics and the private physicians offices. The Health Unit had two series completed and three boosters (third shots) given. Several times that number started their poliovaccination will be promoted so that as many children as possible will have had their 2 injection series before summer and the onset of the polio season.

Discussions were held with the principal of the O. J. Thomas (Colored) School in Cameron regarding health educational programs. A regular film schedule covering a variety of subjects will be set up. The possibilities of similar programs in other schools will be set up. The possibilities of similar schools will be explored.

The following communicable diseases were reported in Milam County during January. Gonorrhea 5 cases, Hepatitis 2, Infectious Diarrhea 76, Influenza 36, Measles 26, Meningitis of undetermined type 1, Mumps 46, Whooping Cough 7, Streptococcal Infections 107, Syphilis 2 and Tuberculosis 3 plus one case reported by

a Veterans Administration Hospital. Regular routine inspections of food and other establishments too have been made during the first month advising farmers and ranchmen and seven schools and cafeterias have been registered during January. Considerable time has been spent by the Sanitarian during the month advising farmers and ranchmen on methods of installation, treatment and maintenance of

### Filing Deadline For City Office Set At March 3

Final filing date for City of Cameron offices, thirty calendar days prior to the election seems to place the deadline at the closing hour of business (City Hall) on Saturday March third.

Only one candidate has announced for any of the three places on the City ballot at this time. That one candidate is for the mayoralty. Places one and two on the council have not had any takers to date.

their private water supplies and sewage facilities.

It is planned to continue the school and school lunch room program during the rest of the school term.

All nuisance complaints that have come to the attention of this office have been promptly investigated. Some corrections were obtained.

Visitors for the month: Mrs. Nell Faulknew, Record Analyst, Texas State Department of Health, Austin, Texas. Mr. James E. Moore, Extension Service, A & M College, College Station, Texas. Mrs. W. F. Holbert, Food and Drug Division, Texas State Department of Health, Austin, Texas. Mr. David C. Carson, Vocational Rehabilitation Service, Texas. Mr. Fred B. Miller, V. D. Investigator, Texas State Department of Health, Austin, Texas. Dr. Ken Quist, Division of Veterinary Public Health, Texas State Department of Health, Austin, Texas. Dr. Engles, Division of Communicable Disease Control, Texas State Department of Health, Austin, Texas.

## Court Instructs Jury To Find Holland "Not Guilty" Of Bribery

"Not Guilty" was the instructed verdict in the case of the State versus Bruce Holland on charges of accepting a bribe from one Elizabeth Blalock, Tuesday afternoon.

The case in 20th. District Court found the jury, by far, less informed than anyone in the courtroom. After a series of interminable conferences between the court and opposing attorneys and other arguments in open court, with the jury closeted, the twelve men, laboriously chosen on Monday, were instructed by Judge O. D. Graham, after thirty-five minutes of cross-fire between attorneys Tuesday afternoon, to "vote" for the instructed verdict without ever hearing any of the merits of the case and little of the legal wrangle.

### God And Country Award Given To John W. Solomon

At the morning service of the First Presbyterian Church, recently, John William Solomon received the God and Country Award in boy scouting. Mr. Homer McLane, Pres. of the men of the church, made the presentation and in turn, Rev. John Solomon pinned the medal on his son. This award is given by the Protestant Committee of the church. John is a member of the local Explorers Unit of The Boy Scouts of America.

### Baggerly In Guard As Recruitment Honors Washington

A local high school student, and football star, Alvin W. Baggerly, enlisted in the unit this week, Battery C, 649th Anti-aircraft Artillery Battalion said today when reporting on the recruiting campaign for new members which it now has under way.

### Fuchs Seeks Sponsors In FFA- 4-H Fat Flock Show May 12

Plans are progressing at a fast pace for the Milam County Junior Broiler Contest, announces Leo Fuchs, Chairman of the poultry Committee of the Cameron Chamber of Commerce. Fuchs reports that F.F.A. members and 4-H

club members have signed up as of this date to the tune of 115. Only 48 sponsors have signed thus far and other prospective sponsors can expect some member of the Poultry Committee to call on them in the near future to extend an invitation to become a sponsor.

The program is set up so that the sponsor will pay a fee of \$10 per grower, the limit one can sponsor being two growers, which will go toward buying fifty baby chicks for a grower, prize money and will pay for a ticket for both the sponsor and grower to the banquet which will be held on Saturday evening, May 12th following a full day of judging the broilers. The grower will bring his five best broilers to the show to compete for the prizes and at the end of the day, these five broilers will be presented to his sponsor and the grower will keep the remainder of his flock.

If you are interested in sponsoring one of these fine boys, or girls, contact the Chamber of Commerce to be signed up.

### March Of Dimes '56 Income Only 15% Short Of '55

The final tally on the 1956 March of Dimes showed only a little more than fifteen percent drop in the returns from the \$9,735.71 figure reached last year.

The drop was anticipated on the basis of the fact that the Salk Vaccine is now developed but Hinton Pruett said that actually the need has moved more into the realm of the personal now rather than the impersonal research just concluded. "We still owe it to those stricken to stay with them until the blight is finally behind us."

during the morning session Tuesday, attempted to converse with the witness as she was leaving the stand. Prescott demanded that the court intervene and stop the Prosecutor from coercing the witness. Nelson retorted that such was not his intent to which Prescott replied that from what he heard him say it was. "It's a lie" was thrown at the defender by the prosecutor. At this point a mild bit of intervention on the part of Sheriff Black was interposed to quell the quarrelling attorneys.

When court re-convened at 1 p.m. Elizabeth Blalock, again on the stand, answered preliminary questions by Nelson. Then came the embarrassing question which called for the retreat to the constitutional immunity. Question 1A "What is your occupation?" Answer 1A: "Maid" Question 1B "Did you, on or about October 14, 1955 have any other source of income? Answer to 1B (this was it) The witness became a spectator to the heated battle of the attorneys.

The prosecutor claimed that the witness alone could claim the immunity. Prescott, on the other hand, demanded the right to prompt his client - the state's star witness. The prosecution pointed to the futility of the state's case without the full and complete testimony of the witness whereupon the defense offered its second motion in the case asking for an instructed verdict.

Drayton McLane was nominated and elected by acclamation as president of the Chamber of Commerce at its noon meeting Friday. Ben Magness was named first vice-president and Charles Burke second vice president. Mrs. Barbara Smithman was re-elected Secretary-manager.

"The goodwill for the Chamber of Commerce is at its highest peak in a long while and I feel that this group will carry on as in the past."

When approached on the idea of being president of the Chamber McLane reported that he found a good many reasons why he should not take the office but when he considered the sacrifices in time that has been made by some of the past officers and committee members that his conscience refused to allow him to turn it down. In appreciation of the fine work of the immediate past president, Bill Burns, and even before officially taking office, McLane made the appointment of Burns as Chairman of the Clay Department.

The membership committee, under the chairmanship of Jimmy Wiggs, made assignments of eighty two prospective members of the Chamber. The board members took no more than two contacts each and the work of contacting them all is expected to be concluded in a week. Wiggs said the drive is dedicated to those who worked hard in securing the Walled-Lake Door Company.

Lester Williams of the Industrial Committee told of having placed the name of Cameron before the Economy Furniture Company of Austin and in the event that concern decides to go through with its original plans to leave Austin that Cameron will be high on its list of prospective sites for its future home.

Dr. George Bowman, chairman of arrangements for the annual banquet reported that the time has been set at 7:30 p.m. March 20 at Simon-George Hall with Jerry Rice catering at \$1.75 per plate. The tickets have already been printed that committee reported. Jack Prescott is to be master of ceremonies and he reported that "Anyone with anything to say at the meeting had better prepare it in advance because of the time limitations that will be placed on all speakers."

The board voted to participate in the Soil Conservation Edition which will be published early in March by the Cameron Herald.

### Milam 4-H Members To Houston Fat Stock Show Feb. 27-March 4

The following 4-H club members and adult leaders of Milam county will show their livestock at the Houston Fat Stock Show, Feb. 27 - March 4, according to Assistant County Agent, Lester Byrd.

Rex McClaren of Cameron, will show a Shorthorn steer, Leland Weido and James Edward Glaser both of Buckholts, will show Short horn steers they caught in the Beef Calf Scramble at the show last year. Bernard Jungmann of Buckholts, will show a registered Jersey heifer that he caught in the Dairy Calf Scramble last year. Henrietta Richter of Cameron will show three fat barrows and Henry Richter also of Cameron will show a gilt and a boar in the breeding swine show.

The group has done an outstanding job with their stock this year and Milam county 4-H club will be well represented at the show.

### Ten Nominees Screened For McCullin Award

Ten nominations were made for the McCullin award for 1955-56. Two representatives from each of the Business and Professional Club, the Junior Chamber of Commerce and the Chamber of Commerce met Thursday afternoon and chose the winner who will be presented the award at the annual banquet at the Chamber of Commerce Banquet in March.

All of these nominations are in confidential files as well as the selection committee.

Research, supported by the Texas Heart Fund, has made new tools available that assist in earlier diagnosis and more prompt treatment of the heart diseases.

There were 28 Cub leaders present from Marlin, Rockdale, Thorndale and Cameron in the Rockdale meeting.

### Bo Peeps

Pinocchio was NOT EITHER a newspaper man. Of course he had a LONG NOSE like his replica in the window last week showed but methinks he was a POLITICIAN looking for supporters.

WE WANT the apple concession at Yoe High School during Public Schools week. When the old timers in Cameron go back to school they will undoubtedly want an "Apple for the teacher." That is the only way some guys like John Henderson ever got out of school. In Temple the nurses at Scott and White Hospital DESPISE apples. They know that an apple a day would keep the DOCTOR AWAY.

RED CROSS is reorganizing in Milam County. Out in Goldthwaite a colored man who used to sell cord wood on the square was queried why he hadn't brought in any to sell lately. "Mr. Dew I see ON DE CROSS," the former word salesman replied. What he meant was that he was receiving a pension and that he didn't want surplus income which might jeopardize that government old age subsidy. The Red Cross gets the "Cred it" for an awful lot of things.

## All Red Cross Memdership Meet At Rockdale Fridry

Tomorrow night, Friday February 24 is the night for reorganization of the Milam County Chapter of the American Red Cross at the American Legion Hall in Rockdale. Anyone who paid a dollar membership fee to the Red Cross at the last drive is a member and eligible to attend the meeting.

A board of directors will be selected at this meeting and that board will in turn select its own officers for the year.

Miss Mary Caruthers, of the Midwestern Area Office, will outline the work of a Red Cross Chapter in a brief talk and the program will also include a film on the 1956 Red Cross Report.

At this meeting it will be determined what service the local chapter will undertake during the next year.

Floyd Stark of Buckholts, who has been serving as treasurer of the Milam county Chapter and as acting chairman since the resignation of Chairman Jack Prescott several months ago presided at the meeting of the steering committee at the Singer's Grill

in Rockdale on Monday night Feb. 13. Stark reported that the Milam county chapter has a balance of \$205.81 in the bank, and still owes

### LITTLE RIVER PHILOSOPHER WORRIED OVER NEW PROPOSAL TO ELIMINATE PAYING OF U. S. EMPLOYEES BY CHECK

Editor's note: The Little River Philosopher on his Johnson grass farm on the Little River is needlessly worried over an idea this week, but he'd rather worry than work any day.

Dear editor:  
I never have been afraid of a new idea, doesn't make any difference if most of the new ones aren't an improvement on the old ones, but I ran across one

the other night that has me worried.

According to it, there's a move on to eliminate paying government employees by check.

Under the proposed system, say a man was working for the government. Instead of being issued a check every week, he'd just be given credit at the bank. This, they say, would eliminate the tremendous job of writing checks for millions of government workers each week, would eliminate long lines at the bank, etc.

I don't know about this. About the only time actually a lot of people have any money is the interval between the minute they get their pay check and the minute they deposit it at the bank, on account of they've already

written enough checks to take it up. They're not depositing money they're covering checks.

Also if this system worked for government employees, it wouldn't be long before it was expanded to private business, and it wouldn't be long before somebody thought of the wasted time in paying taxes by check. Just have the government, city, county, state or Federal, send a memorandum to the bank docking the tax payer for taxes due, whether property or income, and when he got his bank statement at the end of the month he could find out how much the government's take was.

This idea could also be expanded to take in grocery stores, dry-goods stores, filling stations, etc. And sending out monthly bank statements could be eliminated too. Just send out a yearly statement, and to further eliminate figures, the bank could adopt the same system schools now use, don't give exact grades, just say "Satisfactory" or "Unsatisfactory", which would indicate whether you were even or over-drawn.

As you can see, this thing can lead to the elimination of some of life's happiest moments. As far as I'm concerned, there's just not anything more pleasant than a check made out to me, one I can hold in my hand and look at.

Yours faithfully,  
J. A.

### SoPac Announces Enlarged Employee Training Program

Southern Pacific has announced it is enlarging its employee and officer training program to give college training to a substantial number of its people who have shown initiative and ability.

SP says its education plan has been worked out with various colleges and universities along its lines, and is an extension of the pilot effort which has been carried on for the past several years.

The college work, according to D. J. Russell, the railroad's president, would involve one semester of classes in some cases, one-month short courses in the summer for others, and, in a few cases, one year of training.

He said the plan is another step in a comprehensive program for the over-all development of Southern Pacific personnel.

The one-semester courses, Russell explained, will serve to broaden the background and experience of younger SP people who

have demonstrated ability. The one-year courses will be for a few who have not quite completed their work towards a college degree. The one-month courses will

give specialized training in the problems of transportation management and will be for a somewhat higher level of middle management people.

### New Future For Your Present

How many ties did you get for Christmas? For once I didn't come up with any—could have used a couple this year, too. Instead I got three wool muffers. Never wear a muffler.

Some people are determined to do something about the Useless Gift Problem—they're holding a "White Elephant Party" Saturday at the Community Hall.

Handy Peterson's the chairman. "Bring any presents you'd rather give than receive," he says. "Chances are you'll swap them off for something even worse—but it ought to be fun."

From where I sit, it's sometimes pretty hard to give a man exactly the present he wants. Other people so often have tastes and preferences that differ from our own—for example, think of all the people you know who claim coffee's the beverage, and all the others (like me) who'd rather have a glass of beer. Being able to make your own choice is the greatest "gift" of all.

## CYO Skates And Dances Honoring Rev. Buxkemper

On Tuesday night the Cameron Catholic Youth Organization went skating in Temple and on Wednesday night sponsored a barn dance at Simon and George Memorial Hall in honor of Rev. Leonard Buxkemper.

The group that went to Temple was Eddie Joe Pavelak, Evelyn Vybiral, George Zarosky, Lydia Krenck, Mary Frances and Bernice Zarosky.

Hay, lanterns, wagon wheels, and even a buggy carried out the decor for the dance. Bundles of hay and nail kegs served as furniture for the "Wall flowers."

Richard Wilkerson and His Drifters played while groups of CYO members from Marak, Cyclone, Westphalia, Bryan and Burlington danced.

The Grand March was led by Rev. Leonard Buxkemper. As special a snowball dance and Paul Jones dances were held.

Refreshments were cookies and punch. The evening was concluded at around 10:30.

a dinner at their home near Sharp Tuesday evening. Guests were from Sharp.

Mr. Nemec was born on St. Valentine's Day, Feb. 14, and was named Valentine. The name Valentine was too long and has been shortened to Val.

A DISTINCTIVE NEW CAR, BIG AS ALL OUTDOORS.  
STYLED AND POWERED TO A TEXAN'S TASTE!

## "The Texan" BY DODGE

Choice of this dashing Lancer Hardtop or the big, rangy 4-Door Sedan

Now available at your Dodge dealer's is the snappy 2-door Lancer hardtop pictured above, and also the universally popular 4-door sedan... both easily distinguished by specially designed, gold-plated insignia on front, rear quarter panels and deck lid.

Go see them... see how big and roomy they are... just like the proud State they represent! Actually drive a Dodge "TEXAN" and discover the thrill everyone feels behind those high-spirited Dodge Super Red Ram V-8 engines that give you up to 230 horsepower. You'll say these cars are as easy to maneuver as a prize-winning quarter horse.

Yet, snappy as they are in action, Dodge also promises you traditional dependability and ruggedness in every feature of these "TEXAN" bodies and frames. They're every bit as husky as a Brahma Bull. And they're priced 'way down to offer you more power, more comfort, more "class" at scarcely more than the so-called "low-priced" three.

Today, if possible, see these two handsome "TEXANS" close up. Then actually ride in one with Magic Touch Push-Button Control for PowerFlite automatic driving. That's when you'll surely agree that these special models will carve a niche "deep in the heart of Texas."

IN EVERY DETAIL OF STYLING  
AND MECHANICAL ADVANCE,  
"The Texan" IS A PURE-BRED...

ed. Last week we called attention to the fact of the plans being in order for a ceremony which would appropriately unveil much Milam History. Public Schools Week coming up is certainly an appropriate time. The grounds are now cleared and all that is needed is the INSPIRATION among the powers that be.

The Cub Scout leaders at a recent meeting in Rockdale couldn't think of their major problem as being anything but RETICENT if not DELINQUENT parents. They have the boys, they have the top echelon leadership but what they need is DEN MOTHERS and FATHERS.

IT HAS BEEN DECIDED: Bo Peeps will be a WRITE-IN candidate for Mayor. No need in filing. Anybody that can read this announcement can write BO PEEPS on the ballot. Next week, after our campaign manager Narvie Caperton and us (me) have a conference we will announce 1. What we STAND FOR and 2. What we WILL NOT STAND FOR. If you have any suggestions we would be glad to have them. Write to us Dr. Evans. That Wilson who has announced is a well we won't start any MUD SLINGING this early in the campaign. Feel sure that you could give us the lowdown on our opponent couldn't you doctor?

One of the school teachers who put an art display of her class in the Herald window told of one bright youngster who after studying worms turned in a paper with black dots all over it. Asked where the worms were replied "Oh you can't see the worms, they are in the holes and THESE, pointing to the dots, are the holes."

Surviving Miss Kaatz are Mr. and Mrs. Rudolph Kaatz her parents of Buckholts; four sisters, Mrs. Harry Schreiber of Del Valle, Mrs. Harold Taegel of Buckholts, Mrs. Aubrey Weldon of California and Mrs. Clarence Synatzke of Thrall; four brothers, Herman Kaatz of Austin, Alfred and Rudolph of Waco and James of Velasco.

Palbearers were Albert Abel, Edwin Ludecke, Leslie Sakeurty and Louis Groppel.

### TRIAL

the court to quash the indictment on the grounds 1. The indictment is vague and indefinite and certainty is insufficient to enable defendant to prepare defenses. 2. Indictment is not specific enough to advise defendant of the charge against him. And 3. Indictment does not charge an offense under the laws of the state of Texas. This motion was overruled.

The second motion of the defense was acted upon in courts chambers following ten minutes of unmitigated repartee between attorneys and at 1:32 the jury was charged thusly by Judge Graham: Gentlemen of the jury: In this case the defendant, Bruce Holland, stands charged with the offense of accepting a bribe from Elizabeth Blalock while he was the duly qualified and acting deputy City Marshall of the City of Cameron, Milam County, Texas, not to perform his official duties while acting in such capacity. To this indictment the defendant pleaded "Not Guilty." You are instructed to return a verdict of "NOT GUILTY."

singing. Johnny Gimble and his "Homefolks" from Waco, Texas then had plenty of fun and entertainment for one and half hours.

At the half time Max McClaren, Director of Music, of the Meadowbrook Baptist church, Rockdale, joined three other members of a male quartet from this church, and accompanied by the pianist from that church gave several sacred numbers.

At the conclusion of the entertainment, Robert Jungmann, 1st. V. President and Chairman of the Swine Committee assisted President Smith in holding the drawing for the "Pigs" given to the lucky boy or girl who had entered his name in this contest. Winners were Geraldine Abel, 16, year old daughter of Mr. and Mrs. Henry Abel, Buckholts, Texas. Rt. 2, and Jim McCollum, 15 year old son of Mr. and Mrs. R. L. McCollum, Burlington, Texas.

Chas. W. Bailey, 2nd V. President and Program Chairman assisted by Mrs. Bailey and other members of the Program Committee saw that every detail went off as scheduled.

Miss Lenora A. Bickett, Secretary, had charge of a booth where New members were signed up in Farm Bureau and other members could give their renewal memberships, also boys and girls could enter the contest for the drawing in the Swine Program. Some 30 boys and girls whose parents are Farm Bureau members entered the contest this year.

Members of the Hoyte, Milano, Clarkson, Home Demonstration Clubs headed by their respective Presidents, Mrs. T. R. Allen, Mrs. H. M. Wimberly, and Mrs. J. A. Blasenz, opened booths and displayed and sold surprise packages and handmade gifts made by members of the various clubs. Walkers Creek Home Demonstration Club displayed a Hommade Quilt and Mr. Albert Dörner, of Cameron, Texas Route 2 held the lucky number in this drawing. The program closed at 10 P.M.

## Cameron Accepts Invitation To Rosebud Band Clinic

Plans are being completed for the fifth Annual Rosebud Band Clinic to be held Tuesday, March 6, 1956, at the Rosebud high school. Bands that have accepted invitations to take part in the clinic are the Cameron, Marlin, and La Vega (Bellmead) bands. The clinic is being sponsored by the Rosebud Black Panther Band, H. D. Hunter, director.

Clinicians that will work with the bands are Vincent DiNino, director of the University of Texas Loughorn band, and Noah Knepfer, assistant director of the Baylor University Golden Wave band. Highlight of the clinic will be a concert by a 112 piece picked band from the participating bands at 7:45 p.m. in the high school gym. This concert will be free to the public.

### Morgan Family Ready To Depart For Japan

The family of Chief W. E. Morgan (USN), Mrs. Sallie Morgan and son Jackie, 10, are preparing to depart for Kiamakura Japan to live near the Chief's station.

The Chief who has been on recruiting service and lived in Rockdale prior to shipment is now on duty with a "Career Appraisal" team, in the Pacific. The teams go aboard the American craft and lecture to the short term recruits the advantages they may expect by "Shipping over." (Staying in the Navy).

## Milam UT Exes Annual Banquet Friday March 2

University of Texas ex-students in Milam County are to near Dr. C. C. Colbert, professor of education and administrative consultant on Junior College education in Texas at their annual banquet to be held at the Cameron Country Club on Friday March 2 at 7:30 p.m.

Invitations to all known Milam County ex-students already have been mailed but any others not contacted can get tickets from Dana Kestenbaum.

George Bredt of Rockdale was elevated to president when Bill Shepherd of Alcoa, elected president of the Milam exes, moved to Freeport. Willey Loughmiller, the principal of Cameron grade schools, is secretary and in charge of arrangements for the annual affair.

## Undulant Fever "Great Masquerader" Spread by Livestock

Undulant fever has been called the Great Masquerader as its symptoms are the same as many other diseases, according to Dr.

Henry A. Holle Commissioner of Health. It is also known as Brucellosis and Malta fever. It occurs sporadically in Texas which indicates that it is a public health problem and needs more recognition by the public.

Undulant fever is so called because of the wave-like variations in temperature. The symptoms include rise in temperature, loss of weight and strength, chills, sweats and joint pains. The disease has a rather low mortality rate but important because symptoms may persist for a number of weeks and even months before normal health and strength are restored.

In Texas, goats and cows are the usual spreaders of this disease. The germs of undulant fever enter the body through the mouth or skin. Therefore care should be used in handling animals known to be infected, and dairy products from the same sources, if used, should be pasteurized.

More men acquire this disease than women due to the fact that their work as stockmen or meat cutters offers more chance of exposure.

The true prevention of undulant fever is based upon the detection of the disease in livestock and the elimination of infected stock. All dairy herds should be tested for Bacillus abortus.

Pasteurization of milk will prevent the spread from this source. When Grade "A" pasteurized milk is used the consumer is assured that the milk is not only safe but clean.

## Time For Toast — French Fried!

Courtesy Log Cabin Syrup

Are there French toast fans in your family? Then why don't you serve this delightful type of breakfast bread often? It's so easy to make and youngsters, especially, will love the hearty eating it provides. There are tricks to French Toast, too: if you family prefers a crispy fried bread, then make the dip into the milk and egg mixture a quick one. If a softer product is popular, then simply let the bread stay a little longer in the dip. Then, for complete enjoyment—no matter which method of toast you make—be sure to serve with plenty of that extra-flavored maple-blended syrup.

### French Toast

4 slices bread  
1 egg, slightly beaten  
1/2 cup milk  
1/2 teaspoon salt  
maple-blended syrup

Combine egg, milk, and salt and blend. Dip bread quickly in egg mixture and saute in shallow hot fat, turning to brown both sides. Drain on paper toweling. Serve hot with maple-blended syrup. Makes 4 slices of French Toast.

## News From Sharp

The senior class of the Sharp High school will present the play, "The Great Ben Allah," in the school auditorium Friday, February 24, at 7:45 p.m.

It is a three-act comedy. Admission will be 25 cents and 50 cents.

The LADIES AUXILIARY of the Presbyterian church will meet Thursday to begin their study of EPHESIANS with Mrs. Jack Daniel as leader. The study book is "The Way and the Wayfarer". Miss Agnes Rinn will present a program on Social Education and Action: "In All and Through All". Mr. and Mrs. J. C. Cunningham and Eddie, Linda, J. C. Jr., Jerry, and Larry were here from Kingsville to spend Sat. night and Sunday with Mrs. Cunningham's parents, Mr. and Mrs. Ed Fowler.

## If You Charge Fish Don't Try To Charge The Fine In Court

A Houston man got a double charge, both unexpected, when he was caught using an electric device to stun fish, according to the Director of Law Enforcement for the Game and Fish Commission. He got two jail terms - one for "telephoning fish" and the other for fishing without a license. The former reference is to a commonly used device comprising an old fashioned telephone with its hand cranked generator.

The Director of Law Enforcement said the practice is less common than formerly because courts, like the one handling the Houston case, have been increasingly severe.

Illegal fishing activities got another man into trouble, as listed in the Commission's latest arrest report. He was identified as a Rowlett man. Offense: "Shooting fish with a shot gun."

The Director pointed out that the legal means of taking fish do not include use of firearms.

Another seldom listed offense cost a Houston man a fine of \$25 plus costs. It was for running deer with dogs. This once promiscuous custom now is limited to a comparatively small area in East Texas and then is permitted only during the legal deer hunting season.

Night hunting again involved the largest group of offenders. Fifty-two persons were charged with this offense. Some of them paid dearly, such as a Milam man who was levied \$100 on each of three charges, plus costs. It cost an Austin man a total \$200 on three charges under similar conditions.

## BACK TO SCHOOL

By James E. "Bo" Patterson

March 5 to March 10 is Public Schools week in Texas. Attention is drawn especially to the schools for this week for the benefit of those parents who might entertain to any degree any of the modern misconceptions of what goes on in public schools.

Some people today even think of the schools as a place to "Get rid of the little monster each day." Then some think of it as a "Glorified baby sitting institution at public expense." Even those who realize that their child is taught something at school are hazy about just what it is. Truthfully pedagogy does take on some slightly different tacks in reaching the minds of student. The major "varieties" of teaching however do not appear in the "hometown" schools but in the colleges and universities.

It is appropriate that parents find out what the approach to their children really is in Cameron and find out the needs of the teachers and officials. For only when the parents know how they can be of help to their children in their home studies.

### THE BROAD VIEW OF SCHOOLS

The need for the public school never changes, but times and conditions may change or require to be changed methods and practices of public education. This inherent with anything that grows, for growth is the result of change.

Our Texas public schools were created 102 years ago. In 1854 the first law passed established the public school.

It is a healthy thing in our democratic way of life to have intelligent understanding of the important functions of our basic institutions. This is especially true of the schools. The initiative and resourcefulness and the wisdom and leadership that our schools are inculcating in the youth of today are the answer of the problems of citizenship in the years ahead.

Yes, "bring me men to match my mountains". That is the need of our times and must come from the public schools — schools that are strong in virtues required for building strong men and women.

We can be assured of this and do our part in understanding and helping the public schools to fulfill their great obligation to our times by being a participant in the annual Public Schools Week, March 5 through 10. Cameron Schools will hold open house; accept their hospitality, and you will enjoy the experience of going back to school — if but for a day.

## Draft Law Declares Registration At 18 An Absolute Must

A total of 6,602 young Texans registered at the state's 137 draft boards in January, bringing the total number of men on draft board rolls to 930,144.

The law provides that a man must register when he is 18, no matter whether he is at home or not. He is required to go and register at the nearest draft board, no matter where he is. A man can find out where the nearest draft board is by going to a post office.

If a man wishes to be registered with his draft board at home, all he has to do is give his place-of-residence address in that area and that is where his registration card will be sent.

All males in this country born since August 30, 1922 have had a legal obligation to register since August 1948, except those not yet 18.

Failure to be registered as required by law can mean a fine of \$10,000, five years in prison, or both.

## Tax Refunds To Go Out As Soon As Possible

Tax refunds have been mailed to 50400 taxpayers in the Austin District announced R. L. Phinney District Director of the Internal Revenue Service today.

"We know everyone wants his refund as soon as possible and we're pushing them out by the thousands. We want to go even faster but two problems are slowing us down. Simple errors still create additional work for us. Many fail to properly sign their returns and others fail to attach their withholding statements. The other big problem is answering correspondence for those who want to know when they will get their refund."

"We plan to release the bulk of our refunds by July. Those who had errors on their returns and have been contacted by our office may have to wait a little longer," he said.

## Longhorn Caverns May Never Look The Same Again

Reverend Harland Irvin, Vicar of Rockdale and Cameron Episcopal parishes drove the Bowman Station Wagon leading an entourage of twenty-one of the combined churches acolytes, choirsters and confirmation class in a trip to Texas' Longhorn Caverns on Saturday February 18.

Mrs. Barbara Graves, of Cameron and Frank Hyder and Boswell Newton of Rockdale took cars full of the youngsters, ages 9 to 12.

Rev. Irvin reported that the day was wonderful for the trip and besides stopping regularly for soda pops the group of neophytes fed bread to the catfish from atop Buchanan Dam. The group ate at the cafe on the dam.

The youngsters from Cameron reporting a hilarious time were Ann and George Bowman, Linda Kay Kemp and Jackie Stidham.

The American Heart Association and its affiliates have channeled more than \$13,000,000 into heart research since 1948.

## TELEPHONE TALK

### MIGHTY MITE

In the telephone business, we must look beyond tomorrow and into the future for new ways to improve service. And the Bell Transistor, a new electronic gadget, is one of the most exciting developments in many a day.

It's so new that it was an unknown word in my vocabulary not so long ago. But the Bell Transistor is in actual telephone operation already in a few places, helping Long Distance operators to dial direct to distant cities.

Invented by telephone scientists, the Bell Transistor — which consists of a tiny piece of metal sprouting a couple of hair-thin wires — is the first practical replacement for many present vacuum tubes. But it can do many things that a vacuum tube cannot do, and takes far less power to do it. It can, for example, amplify sound waves one million times their original strength. Transistors won't get hot, won't burn out, and have a life expectancy of 50 years.

Tiny transistors — an ordinary *thing* will hold seven — are also helping modernize the communications equipment field. They are being used in radio and television sets, hearing aids, military equipment, and in many other electronic devices.

The telephone company is proud of its miracle mite. With good reason. More than anything else, the Bell Transistor represents another step forward in a continuing effort to bring you the best telephone service possible.

### CALL BY NUMBER

You know, there are a number of expressions which used to be just "telephone lingo", but have now become familiar terms to everyone who uses the telephone.

First came "Long Distance" which people learned to associate with calls to other towns. Now you've adopted "Call by Number" as a familiar term. That's good news for us and for you, too.

By placing your calls by number whenever you make a Long Distance call, you're really saving time. Calls go through twice as fast. Talking about Long Distance, anytime is a good time to call your family or friends just to keep in touch. Why reserve Long Distance calls for holidays or special occasions? Make Long Distance a habit at your house — it's the most personal way to keep in touch.

How about calling tonight? Remember: Rates are lower after 6 p.m. and all day Sunday.

Call by number. It's twice as fast.

## SCIENCE IN YOUR LIFE

## Ills Of Space

Space flight no longer can be considered the sole property of science fiction. It is a reality.

Rockets have already punched through the atmosphere to an altitude of about 250 miles. And even now, engineers of a new breed are planning artificial satellites which will circle the earth.

These are un-manned projects however. Before man himself can safely roam through space, science must solve a number of unique problems.

Man, for instance, has never been exposed to raw radiation. In space flight he will have left his protective layer of atmosphere behind. Even ordinary sunshine could roast the spaceman like a chestnut unless engineers find cooling devices or reflective paints to ward it off.

Other staggering hazards are posed by the speed at which man would travel through space and the altitudes he would reach.

At the speed he would be moving, even small particles could puncture the most efficient space craft yet devised, with fatal effect.

Man himself would be prostrated with motion sickness unless potent new anti-motion sickness drugs like Bonamine are made effective at the fantastically high altitudes space travel would entail, for rockets tumble through space in an end-over-end fashion.

A serious problem, but more a psychological one than a physical one, will be the weightlessness man will encounter in space.

Weightlessness is the puzzling condition which exists when the force of gravity has ceased to operate. In space man and materials will have mass but no weight. In the opinion of space medicine specialists, weightlessness will not harm the human body much, if at all. But it will take time and conditioning for people to learn to move weightless limbs without overshooting and to enjoy sleeping strapped down.

Until these problems are solved, therefore, man will still travel through space in fancy rather than in fact.

## Dr. John McHaney Milam Farm Speaker At Rockdale Monday

"The Farm Outlook for 1956" will be the topic discussed at the second session of the Milam County Farm Clinic scheduled for 7:30 P.M., Monday, February 27 at the Vocational Building, Rockdale High School.

Dr. John G. McHaney, Agricultural Economist, Extension Service, Texas A. and M. College, will be the guest speaker. McHaney is a recognized authority on farm economic problems. He has recently returned from Washington conferences with farm groups studying agricultural market trends, planting prospects and the indicated economic effects of the supply to demand ratio, and possible price trends for agricultural products. McHaney will discuss these findings, together with findings of the A. and M. Economic Department, as they are likely to affect the cost of production and market value of Milam County farm products.

This educational meeting of farmers, stockmen, farm agencies and businessmen has been planned to assist in evaluating the possible market demand to consider methods of reducing cost-of-production, and to assist in planning better markets for the products of the area, according to Ed Dillen, Chairman of the Rockdale Chamber of Commerce Agriculture Committee.

All interested persons are invited. Refreshments and a fellowship period will follow the formal program.

## We Learn About The World-Theme Of Sixth Graders

We do not all have the opportunity of visiting other parts of the world in person, but we can learn about other peoples by studying text-books; by reading books of fact and fiction, poems, and reference books; and by looking at pictures, as well as trying to draw them.

Our sixth grade is now studying about other lands in geography and reading. We are learning the location of different countries and how to spell them; what other people have given us; and many other interesting facts.

From the American Indian we have certain foods, such as corn,

tomatoes, pumpkins; the game la crosse (from which comes tennis); and the medicine, quinine.

From the Dutch have come great masterpieces of art. They have also contributed Edam cheese, tulips, and thrift and cleanliness.

The French have given us artists like Sarah Bernhardt and Lily Pons; heroes like Paul Revere, Lafayette, Champlain, and Pasteur; and a gift of friendship, the Statue of Liberty.

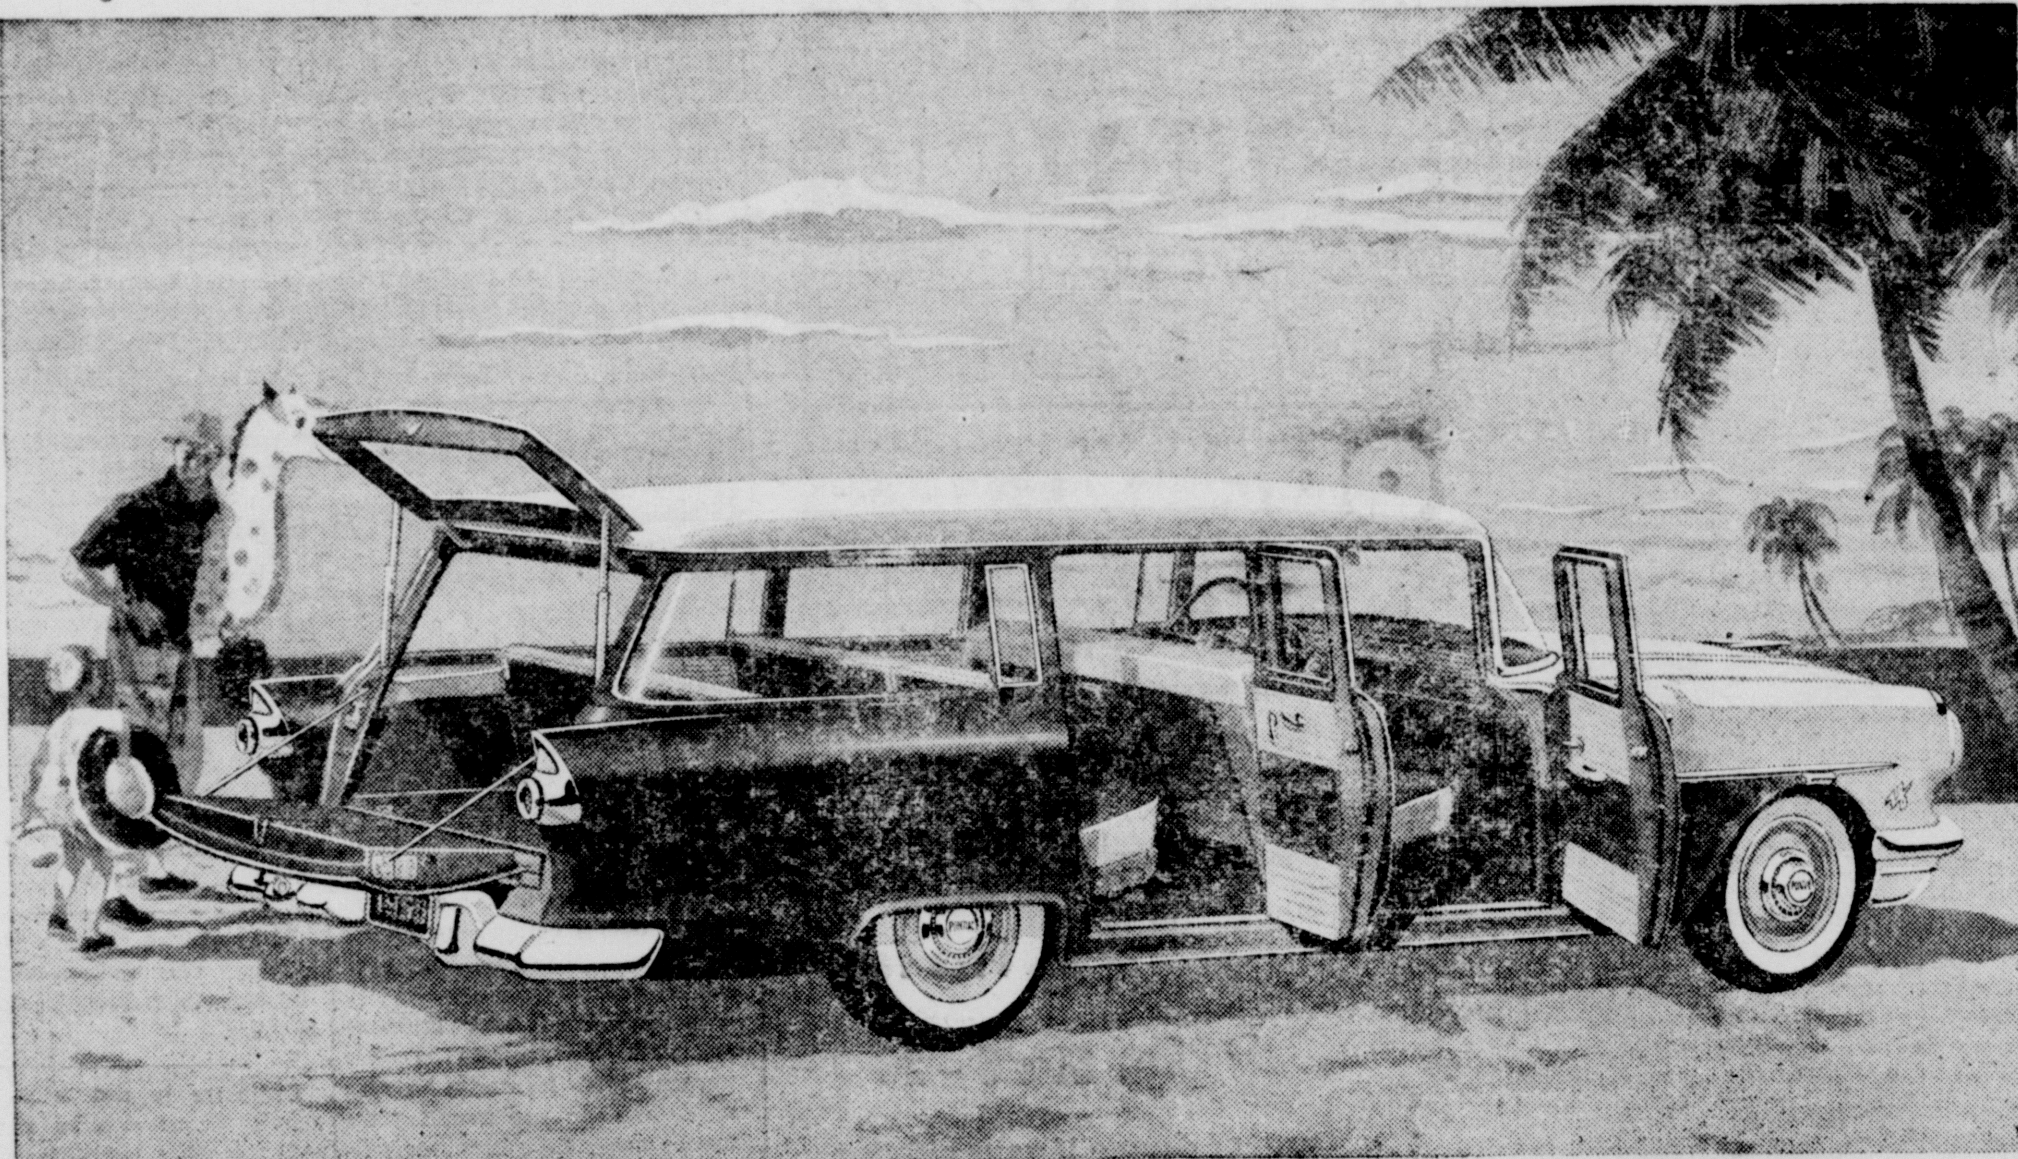

We have studied have read poems and books and have written reports; we have drawn maps and pictures, and have made outlines.

It is hoped that this study will help us to increase our knowledge of other countries, make friends with people around the world through a better understanding of them, and develop our skill in reading, spelling, drawing, writing, and organizing ideas.

## A Tribute To Mrs. Ada F. Sanders

A great soul departed from this earth, January 26, 1956, of Mrs. Ada Florence Pickens Sanders, who married Sherrod Franklin Sanders of Minerva 75 years ago last December, being the oldest charter member of the Minerva Methodist Church. A few have ever lived more closely to Christ's teaching when he said "Let your light so shine before men, that they may see your good works, and glorify your father which is in Heaven."

To countless friends, neighbors, and loved ones, she was a living witness of one who daily walked close to her Lord. With her fine outlook on life, her bright cheery smile, and joy in helping others, she was an inspiration to all who knew her. Spiritually she was a tower of faith.

As the long span of nearly 98 years of life neared its sunset years, her presence beamed more and more a benediction to her dear ones and close friends. By the divine plan of the Savior she has joined the loved ones who have gone on before in a glorious "Home Coming". Someway we feel as she entered the heavenly portals, she was blessed with her Saviour's Greeting - "Well done, thou good and faithful servant - enter thou into the joy of the Lord where she will rest in peace and joy for life eternal.

## "Alcoa Wrap" To Become American Household Name

Aluminum Company of America today placed Alcoa Wrap, a new household foil, on shelves of retail stores throughout the country. R. R. Sugg, Works Manager of the Rockdale Works, announced.

With the use of the name "Alcoa Wrap," the company for the first time will be moving its name into American homes on a consumer product.

Alcoa has almost doubled its capacity to produce foil for home use at the company's Alcoa, Tennessee, installation, Sugg said.

Alcoa Wrap is packaged in a gleaming red, white, and blue on aluminum box and is made in three sizes. Both 25 and 75 foot rolls come in 12 inch widths. A new heavy duty freezer weight 18 inches wide is also available.

A nation wide promotion and advertising program has been set up to announce the new foil which will be distributed by Wear-Ever, a wholly owned Alcoa subsidiary.

## Family Home Life Subject Of Adult M.H. Baylor Class

A home and family life program, discussion groups for adults in Belton and vicinity, will open at Mary Hardin-Baylor Monday, Feb. 27, Dean C. A. Anderson has announced.

The program, a phase of adult education with non-credit classes is offered by the home economics department, making available to women and men instruction that is designed to facilitate home life.

Topics which will be covered during the 10-week program include furniture upholstery and refinishing, construction of draperies, tips on tailoring, new uses and care of miracle fabrics, tips on stretching the food dollar and freezing of foods, gardening and yard beautification, and home care of the sick.

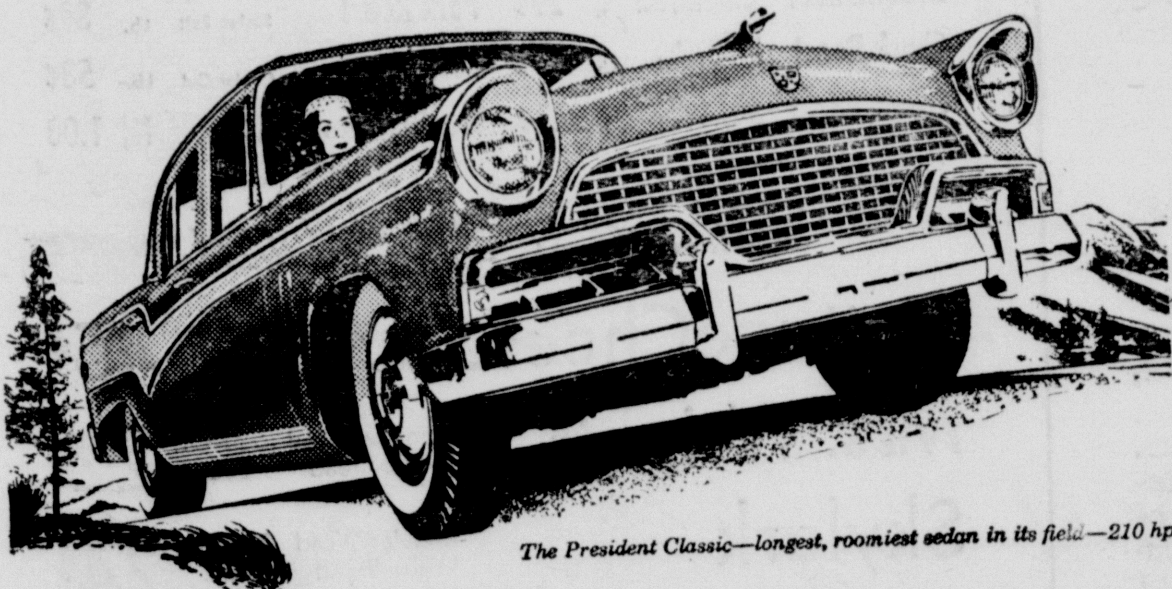

Tentative plans for the program include a one and a half to two hours meeting each Monday night at 7 p.m. for 10 weeks in the home economics department second floor Wells Science hall.

"Interested adults may enroll for the entire series for \$15 or may attend only those they are especially interested in for \$2 a single session," Dr. Anderson said.

"We will be happy to have anyone attend even if for only one time if she cannot enroll for the entire program," Dr. Anderson added.

## Chevrolet Leads In Sales Says Polk Co. As Data Is Compiled

Sales leadership of the automobile industry by more than 100,000 vehicles was credited to Chevrolet today as the R. L. Polk & Co. announced final registration figures for 1955.

The Polk figures gave Chevrolet a lead of 67,405 new passenger cars and 33,891 trucks for a combined margin of 101,296 units over its nearest competitor.

Chevrolet passenger car registrations reached 1,640,681, said the 329,791.

T. H. Keating, general manager of Chevrolet, pointed out that the figures set a new record for the industry and marked the twentieth consecutive year Chevrolet has led the industry in passenger car sales.

"The most gratifying feature of the situation is that our lead over the second place make has been lengthening since the introduction of new models," commented Keating. "December, for instance contributed the biggest monthly margin of the year. Our 162,989 passenger car registrations were upward of 18,000 better than any other make."

## Half Of FHA Loans In '55 Bought Stock And Farm Equipment

Approximately \$5,130,000, or 48 percent of the production and subsistence loans obtained by farmers in Texas from the Farmers Home Administration during the past year were used to purchase equipment, livestock, and make similar investments, Walter T. McKay, State Director for the agency said today.

Farmers are making these investments to set up the kind of farming systems that will make the most of their labor, land and other resources. Production and subsistence loans are also made for fertilizer, seed, tractor fuel, insecticides and other farm and home operating expenses. The loans bear 5 percent interest and repayments are scheduled in accordance with the borrower's ability to repay. Loans for crop production are repayable when income from the crop is received. Loans for capital investments are repayable over periods up to 7 years. The maximum loan is \$7,000 and total indebtedness cannot exceed \$10,000.

Roy M. Wright, County Supervisor, said that several steps are taken by the Farmers Home Administration to assist farmers in making the best use of their loan funds. Before a loan is made a complete farm and home plan is

prepared by the farm family with the assistance of the county supervisor. The plan shows how the farm will be operated, estimated yields and income, and a budget for farm and home expenses. Provision is made for the production of a large portion of the family's food supply and provision is made in the budget for household expenditures and medical care.

No loan is made unless the farm and home plan shows that the farm when properly operated under normal conditions will produce an income that will provide the family a good living and enable them to repay their debts.

Minimum resource guides have been established with the aid of the Extension Service and other agricultural agencies that show desirable combinations of enterprises, the amount of land, quantity of livestock, amount and quality of pasture, and feed, acres of cash crops, and the yield per acre and production per animal that are needed for the successful operation of family-type farms in each given area. These guides are used in developing the farm and home plans.

In addition, at the end of the crop year a complete review of the year's operations is made by the farm family and the Farmers Home Administration supervisor to determine which farm enter-

prises were the most successful and what further improvements are to be made in the coming year.

Wright further explained that credit is also extended by Farmers Home Administration for financing annual operating expenses. These loans are short-term credit designed to help farmers finance one year's operations. Annual production and subsistence loans may be made to farmers provided there is a sound basis for credit. This means that the anticipated gross income from farming and other sources must be sufficient to repay the loan, meet farm and home expenses not provided for in the loan and provide a reasonable margin above such amounts. This type credit is in addition to emergency loans available to farmers or ranchers primarily engaged in farming.

Real estate credit for purchase and development of family-type farms, for financing soil conservation measures, and for the development of water systems for farm home, livestock and irrigation are also available.

### DISTRICT NEWS

Lee Keen, a Taylor Soil Conservation District cooperater, fertilized 20 acres of poor condition bermuda grass on his farm near Milano last spring. A drill was used to apply 200 pounds of 10-20-10 fertilizer per acre on some bottom land pasture that had been mis-managed before he purchased the farm. The fertilizer was on a cost-share basis with the ASC and was put out to increase the ground cover to protect the soil from washing.

Mr. Keen was so well pleased with the results that he plans to fertilize 30-40 more acres this year. He was impressed with the spread of the grass and the fact that the cattle ate the fertilized grass in preference to unfertilized grass.

W. E. Boyd is doing a good job of managing his farm for grazing with some row crops. His farm is located about 3 miles Southwest of Rockdale on the Alcoa road. It consists of deep coarse sand and medium textured sand over a post oak clay sub soil.

At the time he was assisted by a technician from the Rockdale Work Unit of the Soil Conservation Service, in making a soil and water conservation plan for his farm there was some scattering bluestem grass in one 34 acre field. This field was deferred from grazing each fall for three or four years and the stand of little bluestem made enough increase to be in good condition class. It has furnished good grazing during more than one critical period since being established. It will be deferred again this year. The cattle on

tended church services here last Sunday.

Miss Florence Swanzy, daughter of Mr. and Mrs. Floyd Swanzy was here for a visit with her parents and brothers in Rosebud last weekend from Waco. Miss Swanzy is learning to be an X-Ray Technician at the Providence hospital in Waco.

### Officers Of New Baptist Circle Installed Friday

Mrs. Earl Moseley installed eight officers of the Business Women's Circle of the First Baptist Woman's Missionary Society in a candle light ceremony at the home of Mrs. Drayton McLane Friday night February 17.

"Let those who have the light pass it on" Mrs. Moseley admonished each of the officers in turn beginning with Mrs. Winnie Mae Green, chairman of the circle. The thought behind the ceremony being that as in the Greek relays in which each sprinter carries the light to the next so these women should carry on and pass the light on from one to the next and that first light having come directly from the large candle-light which represented the work of the W.M.S. to date.

Following Mrs. Green as chairman was Mrs. Ruby Lee Swanzy co-chairman; Mrs. Helen Patterson, program chairman; Miss Natalie Bynum, Mission study chairman; Mrs. Frances Price, Prayer chairman; Mrs. Frances Mallard, community missions chairman; Mrs. Ruth T. Lagrone, stewardship chairman and Mrs. Stella Thorpe, social chairman.

Two new members were Mrs. An, Moseley and Mrs. Johnnie Richards. Others present were Mesdames Franklin, A. F. Russell Jimmie Asher, A. E. Jones, Earl Moseley and Drayton McLane.

The living and dining rooms of the McLane home were lighted by candles, carrying out the installation theme. Mrs. Jimmie Asher was called on for the devotional, taken from Matthew 5:16 "Ye are the light of the world" in which she held two candles, one taller than the other. The taller candle represented the light of the younger woman and Mrs. Asher made the point "Use Your Light While It Is Still Tall."

Next meeting of the Business Woman's Circle will be on March 8, at the church instead of the 13th or the second Tuesday on which the meetings are to be scheduled, because of the revival which will be going on.

## News From Buckholts

### MRS. J. W. MEYER

Mr. and Mrs. R. W. Wall and daughters Carolyn and Judy are spending the weekend in Marble Falls as guests of his mother, Mrs. T. B. Wall. They were accompanied by Mrs. Millie Krall who is also a guest of Mrs. Wall.

Corporal and Mrs. Daniel L. Jones, stationed at Fort Sill, Okla. are here visiting his parents Mr. and Mrs. Henry Jones and her parents, Mr. and Mrs. H. M. Holloway in Cameron after attending funeral services in Albin, Michigan for Harold L. Holloway brother of Mrs. Jones, who was killed in an automobile accident last Sunday.

Weekend guests of Mr. and Mrs. Charles Hundle are their daughters' families, Master Sergeant and Mrs. Arnold Oraag and daughters, Deanne and Wanda of Huntsville, and Mr. and Mrs. Mike Wasserman and daughter, of Bartlett.

Sunday guests in the Dane Fowler home were her niece and family, Mr. and Mrs. David Andes and children of San Antonio and at the end of each year easy."

"Many more tax returns from farmers will be received this year," H. W. Ewing added. "This is true because the coverage of farm operators by social security will require a tax return from every farmer who nets as much as \$400 from his farming, even if no income tax is payable. Tax return forms for farmers may be secured by writing the District Director of Internal Revenue.

the farm will be on another pasture that has not been grazed for two years while the little bluestem pasture is getting back some of its vigor this summer and fall. The latter pasture has some feather bluestem and little bluestem getting started with some bermuda and annual grasses in the mixture.

Several other grasses have been tried with varying degrees of success. Buffel grass made a good growth the first year it was tried. The grass reached a height of about 2 1/2 feet and lapped in the middles of three foot rows. A cold winter killed about half of the stand. This planting was made on deep coarse sand. Other plantings on tight soils have maintained a good stand for the past four years. Another acre of Lehman's Love grass was planted three years ago. This grass has made seed and the seed have come up in the middle so that the grass is spreading. This grass may find a place in management of pastures, since it gives good grazing during the warm season.

Bermuda grass is becoming well established in some of the pastures on Mr. Boyd's farm. Last year he fertilized 4 acres of very weak bermuda grass that was trying to come in on what was one time a field. He had extra good grazing on this four acres last year and a solid sod has become established. The ASC assisted in cost-sharing the fertilizer which was put out at the rate of 300 pounds of 10-20-10 per acre. Mr. Boyd plans to apply the same kind and same rate of fertilizer to 12 more acres this year. He states that it pays off better than planting sudan.

Willard Olive was assisted in locating a site for a fern pond by technicians from the Rockdale Unit of the Soil Conservation Service. As a complete soil and water conservation plan is worked out these practices will be included: Cross fencing to provide for rotation and deferred grazing and to graze on several fields that will be used for rotation grazing and deferred grazing and to graze on several fields that will be used for rotation grazing and for hay or corn and feed stuff, a new pond to furnish stock water for the different parts of the pasture; a clearing of timber to give the permanent grasses, mostly Texas winter grass, a chance to become more vigorous; and fish for his ponds to provide apart and some good eating.

### Daily Records Are Recommended For Farm Taxpayers

Farmers should keep adequate records in order to be able to file complete tax returns, H. W. Ewing of Temple Internal Revenue office announced today.

"By all means keep a complete record of all your income, and all your expenses from your farming operation," Mr. H. W. Ewing continued. "Keep your records up to date by recording daily each sale product and each expense for fertilizer, and other farm expenses. Personal living expenses, such as your own food, clothing, and the like, are not considered farm expenses. This record of your farm expenses and income will make the job of filing tax returns

turned from State Conference for Supervisors held in Dallas the past week. While there she was a guest in the home of her brother in law, Mr. and Mrs. L. T. Lewis.

Mr. and Mrs. J. R. Slovacek spent Sunday in Bartlett visiting their son's family, Mr. and Mrs. J. J. Slovacek, Diane and Marvin Joe.

## News From Clarkson

MRS. J. A. BLASIENZ

Mr. and Mrs. Joe Fildelfia and children of Ft. Worth spent last weekend here as the guests of Mrs. Fildelfia's mother Mrs. V. D. Dodd and family.

Mr. and Mrs. Frank Weems of Dallas were guests of Mr. and Mrs. Hubert Skala Tuesday night. They also visited in San Antonio, and with Mrs. Weems parents Mr. and Mrs. Bill Harrison and family of Seaton before returning home.

Clarkson was well represented by the local people at the Farm Bureau celebration held at Simon and George Hall Thursday night. Mrs. A. R. McLerran of Cam-

eron, Mrs. C. H. Bailey of Rosebud, Mrs. J. A. Jamison of Jones Prairie and Mrs. V. D. Dodd were visitors of Mrs. Dewey Black on Thursday afternoon.

Miss Lena Yoe of Cameron visited in the J. A. Blasienz home Monday evening.

Mrs. Joe Pagach is reported ill with the flu.

There are quite a few cases of mumps and measles in the Clarkson community.

C. S. Robbins and George Dodd were in Calvert Thursday for the auction sale.

Mrs. Victor Hughes has returned from a pleasant visit with her daughter and family Pfc. and Mrs. Kenneth Thweatt of Camp Gordon

Augusta, Georgia. Before returning home Mrs. Hughes visited friends in Thomasville, Georgia. She also visited in Pensacola, Florida, and attended the Mardi Gras in New Orleans, Louisiana.

Mrs. J. A. McKinney and Miss Ethel McKinney were weekend guests of Rev. and Mrs. W. D. Boswell of Waco.

Mr. and Mrs. E. B. Yager visited in the home of her sister and brother-in-law, Mr. and Mrs. J. C. Flannery of Celina last week. They stopped in Waco for a visit with Rev. and Mrs. J. M. West.

Recent guests of Mr. and Mrs. Bernard White were Mrs. Teddy Stavinho and her two small sons, Tommy and Michael of Rosenberg Mrs. Stavinho will be remembered as the former Shirley Schwartz of Clarkson.

Mrs. Ed White is visiting her parents Mr. and Mrs. D. D. Gooch in Cut-Off, Louisiana.

Mrs. P. M. Allday and son, Faustine of Lufkin were weekend guests of Mrs. A. L. Burnett and Miss Roxie Allday.

Friends will be glad to know Mr. W. R. B. Hughes is recuperating at his home from a bout with pneumonia after receiving medication at a hospital in Cameron.

Mrs. J. H. Burnett, Mrs. E. B. Yager and Mrs. S. S. Hickman attended the World-Day of Prayer services at the Maysfield Methodist church Friday afternoon.

Benny Massengale joined by some friends of Cameron enjoyed several days vacation the latter part of last week seeing the sights in Monterrey, Mexico.

Elmo Canady of Houston visited his parents Mr. and Mrs. O. T. Canady over the weekend.

Mrs. Minnie Ingram is staying with her daughter and family Mr. and Mrs. Wilburn Shuffield in Cameron while their little ten months old daughter ada Odesa is ill in the hospital with pneu-

lotment formula "so it could provide more acres for hardship, small farms, and inequities."

The future? The OCBA president said that "probably our biggest battles will still have to be fought - in Texas and in Washington."

No. 1 on the list of legislative proposals advocated by the OCBA is removal of the 1953 planting year as a basis for computing cot-

ton acreage histories.

"This was the year the U. S. Agriculture Department and its various agencies told farmers to limit plantings in order to prevent a cotton surplus," he continued. "The record shows that, generally, growers in Central and East Texas heeded the advice, while other growers didn't. The result is that our histories were drastically cut because our peo-

ple tried to abide by the rules." The OCBA also is objecting to a move to alter the basis for government loans for cotton. Some proposals would substitute 1 inch staple for the present 7-8 inch basis.

"Our group feels this will unnecessarily work a hardship on Texas growers."

The OCBA has gone on record supporting Congressman W. R.

Poage's Bill No. HR-8703, which they think has great merit and should be supported. It calls for a cotton loan of 75 percent of parity, and in addition payments to producers to increase the total remuneration up to 90 percent of parity, but there payments are not to be in excess of \$10,000.00 to any one cooperator.

TRADE IN CAMERON

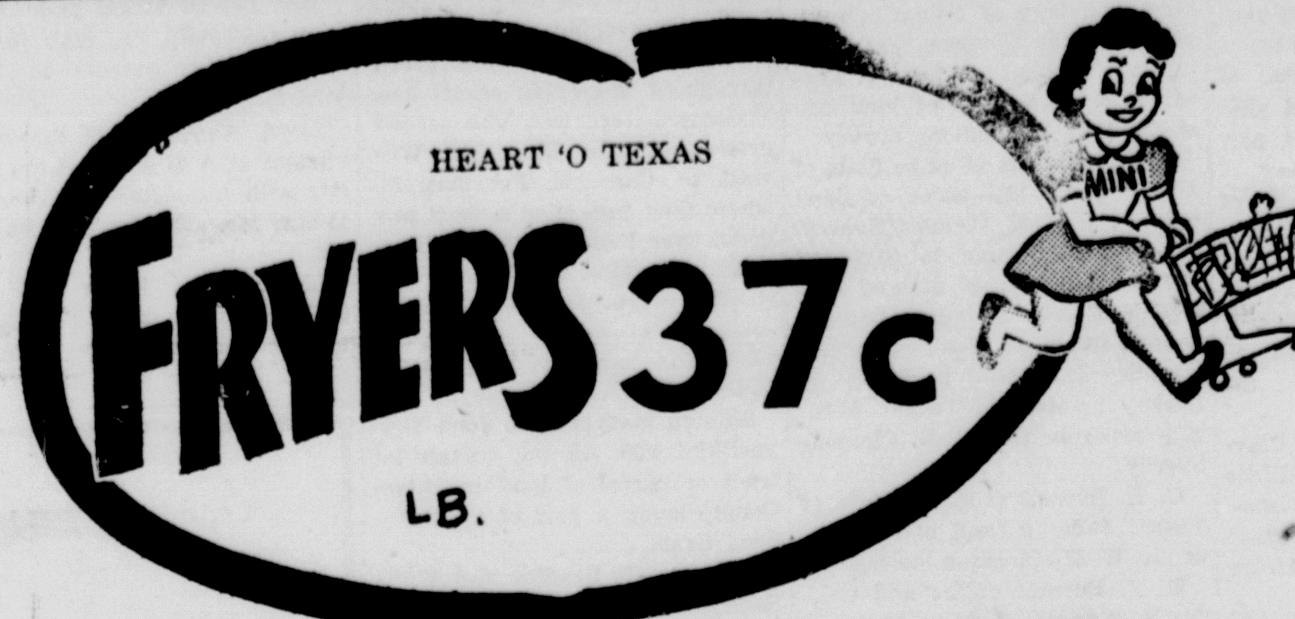

**March Draft Call Up Three To One Over Feb.**  
The March draft call for Texas asks for 774 men, as compared to 289 for February and 283 for Jan. Colonel Morris S. Schwartz, State Selective Service director, announced Thursday.

All local boards in Texas have been advised of their March quotas. These individual board quotas were mailed by state Selective

Service headquarters the past Monday.

The March quota will be filled with men who are 21 years of age or older, on March 1st, with the exception of delinquents, or volunteers, who may be younger.

Mrs. Alvin Dusek reports that her mother and father who live in the valley celebrated their 64th Anniversary on February 19.
